Ceramics, LLC

810 Furnace

Features

- Heavy cross section nichrome heating elements, easily replaced through front of unit
- Refractory lining replacement is accomplished through rear access opening
- Digital temperature control using Type-K thermocouple
- Automatic 7 day timer control with manual override
- Energy efficient low temperature idle
- High alumina refractory lining
- Full width hood for proper fume extraction
- Exhaust system with butterfly damper for variable airflow control
- Silicon Carbide hearth plate

Specifications

Outside Dimensions

W: 38" (97cm)

D: 42" (107cm)

H: 100" (254cm)

Working Space

W: 17" (42cm)

D: 25" (64cm)

H: 9" (22cm)

Available Options:

- Semi Muffle
- Guillotine Door
- Rear Exhaust
